RO

Dear BOR,

As I mentioned in our July 31st Board Meeting, which included Natasha Baker and Teri Cannon, I am responsible for reporting to WASC incidents that may cause compliance issues with WASC Standards and Policies. That being said, the meeting with WASC took place last Wednesday. At that time, I mentioned to WASC that the college had hired an independent investigator, Staci Dresher, to conduct an impartial workplace investigation concerning violations of WASC standards, which were part of a draft complaint that all of you have seen.

WASC agreed to have me send them the investigation results once it is completed in the next 2-4 weeks. I

Ms. Dresher will send an introduction email to some of you and schedule a meeting with her via Zoom so you can share whatever you would like regarding the draft complaint and answer any questions she may have.

I appreciate your taking the time to meet with her and share any insight you may have.

I have included Ms. Dresher, Natasha Baker, and Joel Siegel in this email.

Ron
